

## IEEE Broadcast Technology Society Hosts the 2022 Broadcast Symposium at the Kennedy Space Center

### MEDIA ADVISORY

September 21, 2022, 01:10PM ET

Piscataway, NJ - The IEEE Broadcast Technology Society (BTS) invites you to attend the Annual Broadcast Symposium (ABS) this November 8, 9 and 10<sup>th</sup> at the Kennedy Space Center, Astronaut Memorial Foundation in Titusville Florida. BTS is excited to host the symposium as an in person learning and networking event for the first time since 2019.

This year we are back with an amazing program, location, and keynote speakers. Included in this year's event is the ability to tour the Kennedy Space Center Visitor Center, and the Space Shuttle Atlantis exhibit. As we all get ready to see each other in person again, IEEE BTS continues to provide a unique and fun opportunity to learn about the latest trends in broadcast technology from some of the brightest and most influential leaders in the broadcast technology industry.

Our global perspective and worldwide membership allow attendees to benefit from research and industry trends from all corners of the globe. In addition, our intimate setting affords you the ability to speak directly to the presenters and technology leaders to maximize your learning experience. For more than eight decades this symposium has been one of the most valuable events available in our industry, and the tradition continues in 2022.

BTS hopes you will join us this November as we get back to traditional in person learning at the Kennedy Space Center.
